

Course Outline

Course Name: Front-End Web Development (HTTP 5122)

Academic Year: 2024-2025

Faculty:

Faculty Availability:

Associate Dean:

Ahmed Sagarwala

ahmed.sagarwala@humber.ca

Schedule Type Code:

Land Acknowledgement

Humber College is located within the traditional and treaty lands of the Mississaugas of the Credit. Known as Adoobiigok [A-doe-bee-goke], the “Place of the Alders” in Michi Saagiig [Mi-Chee Saw-Geeg] language, the region is uniquely situated along Humber River Watershed, which historically provided an integral connection for Anishinaabe [Ah-nish-nah-bay], Haudenosaunee [Hoeden-no-shownee], and Wendat [Wine-Dot] peoples between the Ontario Lakeshore and the Lake Simcoe/Georgian Bay regions. Now home to people of numerous nations, Adoobiigok continues to provide a vital source of interconnection for all.

Equity, Diversity and Inclusion Statement

Humber College and the University of Guelph-Humber (Humber) are leaders in providing a learning, working and living environment that recognizes and values equity, diversity and inclusion in all its programs and services. Humber commits to reflect the diversity of the communities the College serves. Students, faculty, support and administrative staff feel a sense of belonging and have opportunities to be their authentic selves.

Humber Learning Outcomes (HLOs) in this course.

The HLOs are a cross-institutional learning outcomes strategy aimed at equipping Humber graduates with the employability skills, mindsets, and values they need to succeed in the future of work. To explore all the HLOs, please consult the [Humber Learning Outcomes framework](#).

Sustainability

Systems Thinking

Indigenous Ways of Being Knowing and Doing (IWBKD)

Critical Thinking

Communication

Digital Fluency

Professionalism

Strategic Problem-Solving

Course Description

This course delivers the fundamentals of computer programming and introduces the tools for creating interactive web pages using the JavaScript programming language.

Course Rationale

JavaScript is the key to creating interactive web applications. A strong foundational in computer programming skills with JavaScript technologies is a requirement for front-end web developer seeking to work in industry-standard front-end libraries and frameworks.

Program Outcomes(PLOs) Emphasized in this Course

Web Development (11491)

1. Determine and document requirements for web computing projects based on the effective application of stakeholder needs.
2. Prepare and present proposals and business plans for web applications that satisfy stakeholder requirements.
3. Design, model, implement and optimize accessible* web solutions to meet client requirements and constraints, and align with standards and best practices.
4. Develop the appropriate information architecture in order to satisfy a broad range of requirements and enhance the user experience.
5. Test, troubleshoot and debug web applications to support requirements and meet Quality Assurance objectives.
6. Select and apply strategies for personal and professional development to enhance work performance.

Course Learning Method(s)

- Problem Based Learning (PBL)
- Project Based Learning
- Lecture

Learning Outcomes

- Integrate JavaScript logic into a web application.
- Create JavaScript programming logic using various coding structures and techniques.
- Accept popular JavaScript libraries or APIs into a web application to extend functionality.
- Create or complete interactive applications that leverage JavaScript technologies.

Assessment Weighting

Assessment	Weight
Applied Project	
Final Project	16%
Milestone Check-ins	

Assessment	Weight
Project Milestone (x3)	8%
Programming Challenge	
In-Class Lab Exercise (x12)	35%
Coding Assignment (x5)	41%
Total	100%

Modules of Study

Module	Course Learning Outcomes	Resources	Assessments
Introduction to JavaScript	<ul style="list-style-type: none"> Integrate JavaScript logic into a web application. 	<p>Duckett, J. Supplemental Resources

Duckett, J. (2014). *JavaScript and jQuery: Interactive front-end web development*. Wiley Publishing.

NOTE: This book is available in digital format through the Humber College library.

Mozilla Developer Network (n.d.). MDN Web Docs. Retrieved from <https://developer.mozilla.org/en-US/>

W3Schools (n.d.). W3Schools Online Web Tutorials. Retrieved from <https://www.w3schools.com/>

Additional Tools and Equipment

- Visual Studio Code software (or another text editor for code, such as Notepad++ or Sublime).
- Web Hosting that meets program standards (speak with your instructor for details).

Essential Employability Skills

Section	Skills	Measurement	Details
Numeracy	<ul style="list-style-type: none"> Understanding and applying mathematical concepts and reasoning Analyzing and using numerical data Conceptualizing 	Teach and measure	<ul style="list-style-type: none"> Learners will be challenged to manipulate numerical data in JavaScript logic. Learners will be assessed in the practical application of these skills through labs, assignments and projects.
Critical Thinking and Problem-Solving	<ul style="list-style-type: none"> Analysing Synthesizing Decision-Making Creative and Innovative Thinking 	Teach and measure	<ul style="list-style-type: none"> Problem-solving approaches with a coding perspective will be taught. Learners will be assessed in the practical application of these skills through labs, assignments and projects.

Section	Skills	Measurement	Details
Information Management	<ul style="list-style-type: none"> Gathering and managing information Selecting and using appropriate tools and technology for a task or project Computer literacy Internet skills 	Teach and measure	<ul style="list-style-type: none"> Creating and managing data in various web contexts will be discussed each week. Learners will be assessed in the practical application of these skills through labs, assignments and projects.

Prior Learning Assessment & Recognition (PLAR)

Prior Learning Assessment and Recognition (PLAR) is the formal evaluation and credit-granting process whereby candidates may obtain credits for prior learning. Prior learning includes the knowledge competencies and skills acquired, in both formal and informal ways, outside of post-secondary education. Candidates may have their prior learning evaluated against the course learning outcomes as defined in the course outline.

To find out if this course is eligible for PLAR, and how this learning would be assessed, please contact the Program Coordinator for more details.

Academic Regulations

It is the student's responsibility to be aware of the College Academic Regulations. The Academic Regulations apply to all applicants to Humber and all current students enrolled in any program or course offered by Humber, in any location. Information about academic appeals is found in the [Academic Regulations](#).

Anti-Discrimination Statement

At Humber College, all forms of discrimination and harassment are prohibited. Students and employees have the right to study, live and work in an environment that is free from discrimination and harassment. If you need assistance on concerns related to discrimination and harassment, please contact the [Centre for Human Rights, Equity and Inclusion](#) or the [Office of Student Conduct](#).

Accessible Learning Services

Humber strives to create a welcoming environment for all students where equity, diversity and inclusion are paramount. Accessible Learning Services facilitates equal access for students with disabilities by coordinating academic accommodations and services. Staff in Accessible Learning Services are available by appointment to assess specific needs, provide referrals and arrange appropriate accommodations. If you require academic accommodations, contact:

[Accessible Learning Services](#)

North Campus: (416) 675-6622 X5090

Lakeshore Campus: (416) 675-6622 X3331

Academic Integrity

Academic integrity is essentially honesty in all academic endeavors. Academic integrity requires that students avoid all forms of academic misconduct or dishonesty, including plagiarism, cheating on tests or exams or any misrepresentation of academic accomplishment.

Disclaimer

While every effort is made by the professor/faculty to cover all material listed in the outline, the order, content, and/or evaluation may change in the event of special circumstances (e.g. time constraints due to inclement weather, sickness, college closure, technology/equipment problems or changes, etc.). In any such case, students will be given appropriate notification in writing, with approval from the Senior Dean (or designate) of the Faculty.

Copyright

Copyright is the exclusive legal right given to a creator to reproduce, publish, sell or distribute his/her work. All members of the Humber community are required to comply with Canadian copyright law which governs the reproduction, use and distribution of copyrighted materials. This means that the copying, use and distribution of copyright-protected materials, regardless of format, is subject to certain limits and restrictions. For example, photocopying or scanning an entire textbook is not allowed, nor is distributing a scanned book.

See the [Humber Libraries website](#) for additional information regarding copyright and for details on allowable limits.
